We have been successfully educating orthopaedic surgeons for over 20 years

The MCh (Orth) Course in Dundee is a clinically-based Masters degree that encompasses taught, clinical attachment and research elements, which provide orthopaedic surgeons with in-depth knowledge of the latest advances in surgical and biomechanical techniques. Our Alumni number is in excess of 400 graduates from all over the world.

Not only have our graduates gone on to further their careers once returned to their own countries, many have taken up new challenges and opportunities within the UK up to Consultant level. Many have published widely in journals and presented at conferences and have even gone onto Fellowships throughout Europe, USA Singapore and Australia.

This unique course, which is accredited by the Royal College of Surgeons of England, offers a truly wide ranging curriculum that will help you to achieve your career goals no matter what your speciality. Our distinguished visiting lecturers are specialists at the forefront of innovative orthopaedics and biomechanics and continue to return each year as they understand the value and benefit of this course to working surgeons such as yourself.

**KEY REASONS WHY YOU SHOULD STUDY IN DUNDEE**

- The only MCh (Orth) Course outside England to be accredited by the Royal College of Surgeons of England
- MCh (Orth) awarded by the University of Dundee Medical School, is recognised by many States Medical Councils of India (MCI)
- Associated clinical attachment with a consultant orthopaedic surgeon for the duration of your studies with no need for GMC registration
- You will attend workshops using the latest surgical techniques using Thiel soft-embalmed cadavers which is currently unique to Dundee in the whole of the UK
- Genuine opportunity to publish your research in peer-reviewed journals and to present your research at international conferences
- We have what we consider to be the best orthopaedic lecturing faculty drawn from specialists across the entire United Kingdom
- To be a part of our University of Dundee Alumni ‘family’, a family we consider colleagues, friends and ambassadors
I would like to take this opportunity to warmly introduce you to the Master of Orthopaedic Surgery (MCh Orth) course at the University of Dundee, UK, which will further your orthopaedic knowledge.

This unique MCh (Orth) course, is accredited by the Royal College of Surgeons of England, and offers a truly wide ranging curriculum that will help you to achieve your career goals no matter what your speciality.

We have successfully educated more than 400 orthopaedic surgeons over the last 23 years. Our MCh (Orth) philosophy is to recruit ambitious orthopaedic surgeons with career aspirations that encompass leadership, academic excellence and the highest levels of skill and expertise.

Our graduates value education and recognise the need for professional reflection and lifelong learning to deepen their understanding, and to enhance their ability and develop a sound professional judgement.

I hope I can warmly welcome you to what we refer to as the MCh (Orth) Dundee family. This ‘family’ is like any other family in that we work together, respect each other, and offer support when needed.

We are here to make your time in Dundee as easy as possible so you can concentrate all your efforts on your studies, so please feel free to contact me or any member of my team using the contact details on the reverse of this leaflet. Not only will you be embarking upon a year of study and research, you will be developing personally and professionally whilst meeting new people and establishing lifelong friendships. This is what our MCh Graduates tell us.

Professor Rami J. Abboud
MCh (Orth) Course Director
Head of Department of Orthopaedic & Trauma Surgery
Associate Dean for Learning & Teaching, School of Medicine

Don’t just take our word for it:

All genuine student testimonials from www.orthopaedics.dundee.ac.uk/testimonials.php

“I consider this to be the most important and highly essential course for one to achieve excellence in the field of orthopaedics”

“An essential course for all orthopaedic surgeons who aspire to achieve orthopaedic excellence”

“The Course Director has assembled a curriculum, structure and facilities which makes this course the best of its type in the UK”

“I think anyone who is lucky enough to get accepted onto the course, should grasp the opportunity with both hands”

“I would recommend this course to all orthopaedic surgeons who wish to learn orthopaedics on a different level”

“I learnt all the finer details and the 'tricks of the trade' that I now apply to my own flourishing practice”

“I feel honoured to be a part of this esteemed MCh (Orth) Dundee fraternity, in its second decade”

“I feel this course is by far the most comprehensive MCh (Orth) course available in the world today”

“It taught me more about clinical audit and research, which subsequently helped me to write more than 30 papers, now cited in orthopaedic text books”

“Although the MCh (Orth) Dundee wasn't my first international exposure, it was definitely the best. The learning experience was great and the staff members were even better”

“This course has helped me enormously to grow both professionally and personally”

“I am so proud to finish this MCh (Orth) course in Dundee and to be a part of this big family of graduates”

“Excellent teaching faculty, diverse lectures, numerous orthopaedic workshops”
THE UNIVERSITY OF DUNDEE...

UK Top Ten for both excellent teaching quality and student experience

Dundee is now ranked in the top 30 of UK universities by both the Good University Guide and The Guardian

Named Scottish University of the Year in The Times & Sunday Times Good University Guide for two consecutive years and are one of the world's Top 200 universities, as ranked by Times Higher Education.

Both Times Higher Education and QS World University Rankings have ranked Dundee best in the UK and 15th world-wide among universities under 50 years old.

Scottish University of the Year and one of the world's Top 200 universities

Ranked 8th in the UK for student experience, receiving its highest ever scores in the survey

Students rank us 1st in the UK for Personal Development

Among the top 20 most innovative universities in Europe, and first in Scotland, in a new ranking by Reuters

95.9% of our 2013/14 graduates were either in work, further study or due to start work shortly when surveyed 6 months after graduation

The top MCh (Orth) degree, at the top Medical School in Scotland, with Scotland having most recently been voted the top UK country in which to live
